

Priya Verma

ITALICPLACEHOLDER0

1. Student Information

- BOLDPLACEHOLDER0 Priya Verma
- BOLDPLACEHOLDER0 priya.verma22@gmail.com

2. Overall Assessment

Priya Verma demonstrated solid foundational knowledge during the interview session. The overall performance reflects good potential with clear avenues for structured growth.

3. Interview Performance Summary

BOLDPLACEHOLDER0

- BOLDPLACEHOLDER0 Shows strong interest in patient care and continuous learning./10

4. Technical Strengths

- BOLDPLACEHOLDER0 Good clinical understanding and empathetic communication
- Strong grasp of fundamental programming concepts and syntax.

5. Areas for Technical Improvement

- BOLDPLACEHOLDER0 Can improve confidence in complex case discussions
- Would benefit from deeper practice in complex problem decomposition under timed constraints.

6. Communication & Soft Skills Assessment

Communication was respectful and cooperative. Focus on structuring technical responses using clear frameworks (e.g. Context -> Solution -> Impact).

7. Interview Behaviour & Observations

- BOLDPLACEHOLDER0 "Shows strong interest in patient care and continuous learning."

8. Key Areas Needing Focus

- Structured problem analysis before coding.
- Systematic testing of edge cases.

9. How to Improve Each Area

- BOLDPLACEHOLDER0 Solve 2-3 targeted algorithmic problems daily with timer.
- BOLDPLACEHOLDER0 Practice explaining solution approach out loud before writing code.

10. Recommended Practice Topics

- Arrays, Strings, and Hash Maps.

- Basic Tree and Graph traversals.

11. Actionable 30-Day Improvement Plan

- *BOLDPLACEHOLDER0* Focus on core data structures and time complexity analysis.
- *BOLDPLACEHOLDER0* Practice mock technical interviews focusing on clear communication.

12. Suggested Action Items for HR / Mentors

- Provide candidate access to problem practice platform.
- Schedule follow-up mock evaluation in 30 days.

13. Final Encouraging Words

You have a great foundation, Priya Verma! Dedicated practice over the next few weeks will significantly boost your technical interview confidence. Keep pushing forward!
